

# IS PAIN HOLDING YOU BACK?

Are you struggling with acute or chronic pain?

Are you experiencing stiffness or limited mobility?

Are you recovering from an injury or surgery?

Are you looking for a non-invasive, drug-free alternative to injections or surgery?

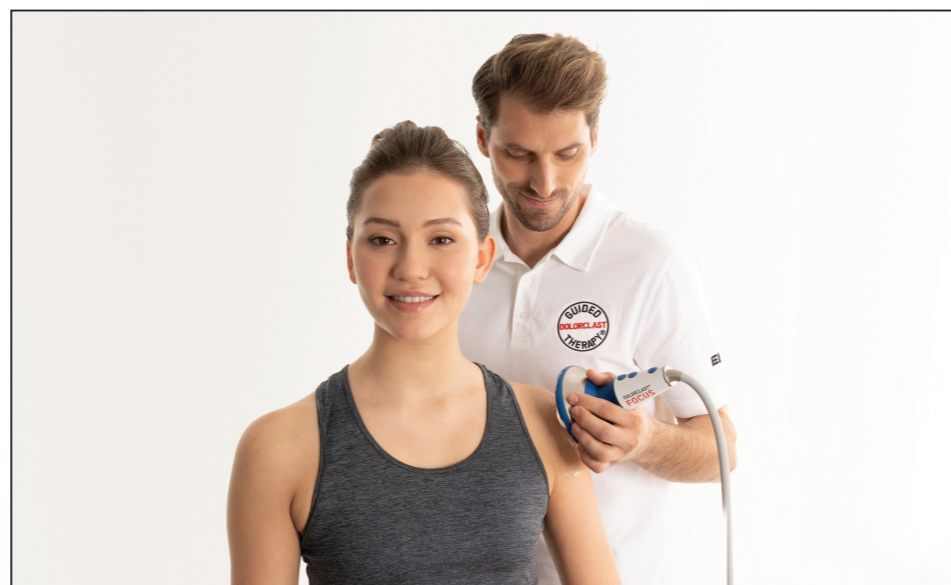

Do you want to maximise the results of your rehabilitation?

Persistent pain, inflammation, or reduced mobility can make everyday activities difficult – whether it affects your muscles, tendons, joints, or bones.

There is a clinically proven, natural way to address these issues.

If you answer **YES** to any of these questions, **DolorClast® Shock Wave Therapy** may be the solution for you.

# DOLORCLAST® SHOCK WAVE THERAPY

Fast. Effective. Drug-free pain relief.

EMBRACE YOUR LIFE IN FULL MOTION

## HOW DOES DOLORCLAST® SHOCK WAVE THERAPY WORK?

DolorClast® Shock Wave Therapy is a non-invasive solution that uses high-energy acoustic pulses to safely and effectively treat musculoskeletal conditions.

Energy is transmitted through your skin directly to the area where pain and inflammation occur. It unlocks your body's natural ability to repair itself by supporting key healing mechanisms, such as:

- Improving blood circulation
- Stimulating cartilage repair
- Activating the repair of damaged muscle fibers
- Promoting bone healing
- Stimulating tendon remodelling

## WHAT RESULTS CAN I EXPECT?

DolorClast® Shock Wave Therapy is clinically proven to:

- Relieve pain
- Restore mobility and function
- Reduce inflammation
- Provide long-lasting healing benefits
- Promote tissue repair and regeneration

## WHAT CONDITIONS CAN BE TREATED ?

- Back pain
- Tendinopathy
- Osteoarthritis
- Enthesopathy
- Fasciopathy
- Myofascial pain syndrome
- Calcification
- Delayed union and non-union fracture
- Spasticity
